PRODUCT GUIDE

BICYCLE ACCESSORIES
vg@v-grip.com.tw

We were established in 1976. We are not only professional in making the superior quality of the plastic accessories in bicycle and motorcycle field but also paying more attention in innovation & development.

There are many models that PAT. in many countries. In year 2000, Mr. Edward Huang created the range of unique design products line with the V-Grip brand. We have founded the market sales in OEM/ODM and OBM for all over the world.

Not just the ride for fun...
Not just the ride for comfortable...
Not just the ride for safe...

V-Grip is all of these. Having established the only concept on each innovative product with the best quality and unparalleled value. Product is not only the single function. More creative ideas than the expected on each project.

WATER BOTTLE & BOTTLE CAGE

- 02 HET™ Material Series

LED FENDER

PAT. TECHNOLOGY

- The series of led by V-Grip use 1 single led with the "obverse beam by light-guide panel technology"
- With this technology, it could make the most efficiency to get powerful-light.
- Result is the powerful light & less power consumption.

V-LED1F

26" Front Fender

Product feature

- Led Fender is a global pioneer design for fender and Led light combination. It makes the fender not only single fender but also multi-functions. Pat. In many countries.
- Only 1 PC of small Led light input and get the Max. light power through the light guard.
Be easy to get warning function.
- 160 hrs of continuous usage / 1 PC battery
- Adjust the best angle w/o any tool easily for quick-released clamp on seat post.
